Description

With some directives I get "No matching rules!" when migrating them. In the list they don't show the yellow triangle with exclamation mark, which is correct, because there **are** matchning rules.

History

#1 - 2015-02-17 11:26 - Dennis Cabooter

- File no_matching_rules.png added

I forgot to attach the screenshot. :)

#2 - 2015-02-20 10:37 - François ARMAND

- Category set to Web - Config management

- Assignee set to François ARMAND

- Priority changed from N/A to 1

- Target version set to 3.0.1

Hum, that is very BAD bug.

We had a similar problem for nodes (#5764), but here, the problem is with directives / rules - which is a much simplier dependency to get right.

Do you see a pattern for which directives it happens ? Some idea:

- they are applied to several rules,
- they are applied to only one rule,
- the rule they are applied to have no group,
- the rule they applied to have a status different from "in application"
- it's only directives on a certain category
- well... any other ideas :)

I suspect that this bug may be happening before 3.0, I will try it in older release as soon as I can reproduce it.
