Rudder - Bug #6685

Wrong inventory display in the "List nodes" page

2015-06-01 12:47 - Alexis Mousset

Status:	Rejected		
Priority:	N/A		
Assignee:			
Category:	Web - Nodes & inventories		
Target version:	4.1.17		
Pull Request:		**Priority:**	0
Severity:	Minor - inconvenience | misleading | easy workaround	**Name check:**	
UX impact:		**Fix check:**	
User visibility:	Operational - other Techniques | Technique editor | Rudder settings	**Regression:**	
Effort required:			

Description

In the **List nodes** page:

```
Node name                Machine type         OS name         OS version OS SP   Last seen
agent1                   Virtual              CentOS          6.6        N/A     2015-06-01 10:36
server.rudder.local      No Machine Inventory os.name.Linux   Linux      N/A     2015-06-01 10:35
```

The inventory page is OK:

```
Node characteristics
General
Hostname: server.rudder.local
Machine type: Virtual machine (Virtual Box)
Manufacturer: innotek GmbH
Total physical memory (RAM): 1.46 GB
Total swap space: 991 MB
System Serial Number: 0

Operating system details
Operating System: CentOS release 6.6 (Final)
Operating System Type: Linux
Operating System Name: CentOS
Operating System Version: 6.6
Operating System Service Pack: None
```

This was solved by running a manual inventory.

Maybe Node information cache was not correctly invalidated, still shwoing you old informations,

François what do you think of this ?

It was most likely a duplicate of #12041 (when we told it was an old bug...). Closing!

#42 - 2018-11-14 17:38 - François ARMAND

- Is duplicate of Bug #12041: No Machine Inventory in nodes list while the details are complete added
