History

#1 - 2017-01-11 11:32 - Nicolas CHARLES

- Priority changed from N/A to 1

More specifically, request is kind of delayed until we click on the rule list, to select a rule. Then an error message appear in the form

```
There was problem with your request.
'Message of the day (MOTD) to display' field must not be empty
```

It's like values are not taken into acocunt, and form not correctly submited
