Fixes #10655: Unclear field description in MOTD technique

History

- #1 - 2017-04-27 12:20 - Alexis Mousset
- Subject changed from Changing text in the MOTD. to Unclear field description in MOTD technique
 - Category set to Techniques
 - Target version set to 3.1.20
 - Severity set to Minor - inconvenience | misleading | easy workaround
 - User visibility set to Operational - other Techniques | Technique editor | Rudder settings
 - Effort required set to Very Small

This is the normal behavior, when the agent runs, it has no knowledge about previously applied configuration. You need to check the "Enforce this MOTD only" to only have the live you entered in the form in your MOTD (and remove all the rest). It should be clearer in the form.

PR <https://github.com/Normation/rudder-techniques/pull/1140>

#4 - 2017-04-27 12:34 - François ARMAND

- User visibility changed from Operational - other Techniques | Technique editor | Rudder settings to Getting started - demo | first install | level 1 Techniques

Changing the visibility to Getting started because motd is level 1 technique.

We thought of renaming: **enforce** to **Append to existing MOTD** (disabled by default).
But as the semantic is inverted, it may be complexe to migrate (or need to change name).

Perhaps adding a default to enforce, to?

#5 - 2017-04-27 14:14 - Alexis Mousset

- Status changed from Pending technical review to Pending release

Applied in changeset [rudder-techniques|a7800314fea1256bc8f7e281d3c550c79ab9f9b6](#).

#6 - 2017-05-22 16:33 - Vincent MEMBRÉ

- Status changed from Pending release to Released

This bug has been fixed in Rudder 3.1.20, 4.0.5 and 4.1.2 which were released today.
